

TILAK GAUR

Backend Developer | Computer Science Student

tilakjaipalgaur31@gmail.com | +91-7875609397 | Ahmedabad, India | www.linkedin.com/in/tilak-gaur | <https://github.com/Wall-E-30>

EDUCATION

Bachelor of Technology in Computer Science

- Adani University

2024 – Present

CGPA: 8.61

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, HTML/CSS

Backend & APIs: Flask, FastAPI, RESTful API Design

Databases: PostgreSQL, SQLite, SQLAlchemy, Neon

AI & Computer Vision: OpenCV, MediaPipe, spaCy (Named Entity Recognition), Machine Learning integrations

Deployment & Tools: Git, GitHub, Render, Brevo (SMTP)

Cybersecurity & Networking: Network Reconnaissance, Maltego, Metasploit, Footprinting

TECHNICAL PROJECTS

CashScript — Full-Stack Developer (<https://github.com/Wall-E-30/CashScript>)

- Designed and deployed a full-stack order and expense management application for a food truck business.
- Built the backend architecture using Python, Flask, and SQLAlchemy, integrating a Neon Postgres database for reliable data storage.
- Deployed the live application to Render and implemented Brevo for automated SMTP email services.

Project PRATYAKSHA — AI & Backend Engineer

- Developed the backend architecture for a satellite environmental intelligence platform designed to assist municipal corporations.
- Engineered high-performance API endpoints using FastAPI to bridge complex geospatial data with the React frontend.

AI-Powered Complaint Engine — Backend Developer (<https://github.com/manavshah-13/TarkShastra>)

- Built a specialized classification system for the wellness industry that categorizes customer complaints and maps them to recommended resolutions.
- Architected and integrated the core logic within a strict 15-hour rapid prototyping window.

HACKATHONS & ACHIEVEMENTS

- Aetrix 2026: Developed Project PRATYAKSHA.
- AU Hackathon: Developed FinanceDash AI.
- Hackout 25: Developed project TidalTrees.
- TarkShaastra: Successfully engineered the AI Complaint Engine within the 15-hour deadline limit.
- Cybersecurity Foundation Ranking: Secured 3rd Rank in a competitive, technical quiz testing network defense and reconnaissance.
